## Training Overview:

An interactive exchange between County supervisors, program directors, SWAN staff, and attendees. The panel will provide specific county insight regarding the ongoing impact of the CPSL (Child Protective Services Law), relevant child welfare legislation, SWAN services, county needs, and more. Affiliates and mental health professionals should be prepared with questions to ask of County personal, with the goal to improve cross-provider communication and the quality of service rendered to clients. This training is appropriate for Children and Youth and Affiliate Agency supervisors, administrators, and direct service staff. Mental health professionals benefit from attending, especially if clients served are connected to child welfare. **And of course what we are all interested in: How does COVID continue to affect the way the county operates?**

## About the Presenters:

The panelists represent a diverse group of professionals from various Offices of Children, Youth, and Family Services in Southeastern Pennsylvania. Panelists will share county specific information about relevant legislation, client trends, agency needs, and more. Invited counties include: Bucks, Berks, Montgomery, Northampton, Chester, and Delaware.
